

**GL74GV**

**AQUA GRILL**

- Structure made of steel throughout
- 1.2 mm thick top
- Pull-out grids for ease of cleaning
- Integral splashback
- Pull-out cooking debris tray and pressed basin for water and fat collection for ease of cleaning and improved cooking thanks to the fast cooling of fats and effect of the evaporation
- High thermally efficient stainless steel (AISI 316) tubular burners regulated by safety device equipped with thermocouple and pilot flame
- Piezo ignition
- Integrated water filling tap
- Steel open base unit
- Height-adjustable stainless steel feet

**General technical data**

Dimensions: (mm) **800x700x900**

Volume: (m<sup>3</sup>) **0,9**

Weight:: (Kg) **100**

**Gas connection**

kW **16**
